Construction is Coming to Your Area Soon Irwin Creek Tributary

Irwin Creek Tributary Phase 2 Yeoman Road to Dewitt Lane

CONSTRUCTION SCHEDULE UPDATE

WHAT: Contractors for Charlotte Water are continuing construction work for a wastewater pipe replacement project in the Clanton Park/Roseland and York Road neighborhoods. The initial work down Stuart Andrew Boulevard is nearing completion and the next phase of construction will begin – pipe installation along the northern branch toward Dewitt Lane.

WHEN: Crews are expected to begin on the northern branch in January 2021.

WHERE: Crews will begin pipe installation behind Bowman Road and work toward Dewitt Lane (see map).

WHAT TO EXPECT:

Road and lane closures around work area -

A portion of Stuart Andrew Boulevard, between Michael Wylie Drive and Pressley Road, will be closed beginning January 4 for 2-3 weeks as crews complete the work down Stuart Andrew Boulevard. Temporary lane closures may also be in place at times in other parts of the project area. Motorists and pedestrians should follow all traffic control signs and use caution when merging into traffic.

Moving equipment on site – Crews will move construction equipment and materials to easements along the project site as tunnel construction begins.

Pipe delivery and storage – Pipe will be stored within the construction easements.

Establishing a safe work zone – Fencing will be installed, and pipe will be stabilized to prevent it from moving.

Trench digging, placing pipe and backfilling

Customers may feel a rumble – Crews may remove rock formations by use of small blasting. Areas along the alignment where blasting is required will be determined shortly after site clearing and residents within 500 feet radius of the blasting sites will be contacted further. Blasting

is a standard construction procedure in which holes are drilled into the rock for dynamite placement and covered with heavy mats. A seismograph monitor records blast vibrations to verify they are within specifications. All safety precautions will be taken. Customers may hear a warning horn, a muffled noise, and slight vibration or rumble similar to a slammed door or thunder. Construction traffic (dump trucks) along the alignment, within the easements.

NEXT STEPS: The work on Stuart Andrew Boulevard is expected to be complete in January 2021. Pipe installation along the northern branch is expected to take 6-8 months to complete. Once this portion is completed, crews will begin laying pipe along the southern branch toward Yeoman Road. This next phase of work is expected to begin in the fall of 2021. Construction schedules are subject to change, due to weather and other conditions.

QUESTIONS: Please visit the project website at www.charlottewater.org (click on "construction projects") for updates on progress. If you have a question, please contact project engineer Will Rice, (704) 578-9734 or wrice@charlottenc.gov.
